Kapitel 8: Moon Love

Moon love

I'm searching for the moon
And I saw your face.
It shines on me...
„I love you“, did you say.
I do not understand.
„Why did you say me that?“, I asked.
You go away.
Now, I understand yours words.
„I love you, too. “, I said to the moon.
„I know...”
You stand behind me
And whispers these words:
„I love you...”
You kissed me.
I kissed you, too.
But only the moon
Knows us...
Our feelings...
Our kiss...
Only the moon knows this.
