come to me
i'll never leave your side
there's only you
and me

forget the pain
re-discover your past
and find out more
with me

it took so long
for us to meet
now that you're here
with me, my girl
i want you to
stay forever
and never leave
never leave

now she's here
the foe i'm afraid of
i want you to be mine

go away
whats happening to me
i thought it was
you and me
noir.
