Kapitel 3: Issues

ISSUES

Yeah you never liked this
"O take care and come back safely
to your waiting , loving wife
and remember, I love you darling
so let me kiss you now gooddbye"

Yeah it sounds just like this oddly
happy memory from the 60-ies
'Bout the willing doe at home
and her man who are at work
Maybe flirting with the clerk

So what happend to you lately
What is all this shit about
Why does his "I love you, baby"
Really touch you from inside

Yeah I know you don't believe him
You really have an icy heart
Never learned to trust a person
Now you're so tangled and puzzled
No one ever touched you by your heart

Yeah I guess that's why this phrasing
Sounds so suddenly amazing and so new and great to you
And your cold and so proud heart
To your surprise just so suddenly starts to melt
Apart right in front of you
